

Welcome to the
Railcare Services

Welcome to the **Railcare Services**

Street Care Rail Division is dedicated in the management and implementation of works on the London Underground network. We have to-date delivered a number of London Underground Work Packages through management and main contractors.

We are specifically keen to expand our operation in the London Underground Environment and want to focus on working with the PPP Contractors Tube Lines and Metronet.

We believe with the combined knowledge and experience of both our Directors and support of our operatives, we will deliver exactly to our client's requirements and expectation.

Railcare Services Capability

With over ten years experience Railcare Services offers a wide range of services including:

- Groundworks & Light Civil Engineering
- London Underground (Civil & Premises)
- General Station Refurbishment

Health & Safety

Streetcare Services UK limited is committed to promoting and maintaining a safe environment for our staff, clients, and colleagues, and for those whom, we work around.

Our Directors regard the Health and Safety Policy as being paramount and take all matters of Health, Safety and Welfare seriously and as our top priority.

One of our Directors is NEBOSH Certified and is fully conversant with CDM and London Undergrounds QUENSH Conditions and Working Reference Manual. He is certified and competent to undertake risk assessment and review method statements.

He has held the position of DER, Planning Supervisor and Principal Contractor in his previous roles and projects. Our labour force is fully compliant with the CSCS Schemes. A number of our staff have acquired the relevant training and certification to work on the underground.

In addition we employ external Health and Safety Consultants to Support the business and our employees with their training needs and

requirements. They support us in preparation of safety plans and the implementation of safe system of works.

They monitor and audit the Safety Management System to incorporate new legislation, technology and work practices. We are currently in the process of achieving a Quality Management System ISO 9001 and hope to achieve Environmental Management System ISO 14001 in the future.

We have the necessary Insurances for both public and employers liability, to the required value to work on the London Underground sites.

Railcare Services People

We believe our success largely lies with our people. First and foremost we have loyal workforce that are highly competent and professional in their field of work.

Our workforce comprises of fifteen skilled operatives and has regular availability of specialist sub-contractors. Both our directors, have collectively thirty five years experience and varied skills.

Our director Mr Sean Faughnan, has over twenty years experience in the industry, managing multiple disciplines at the forefront.

Our director Mr Ashraf Hussain is an Incorporated Member of the Chartered Institute of Building. In addition he holds a number of Health and Safety Qualifications and has ten years experience in the London Underground Environment working for Main Contractors, Consultants, Infracos and London Underground.
